## ONE OF THE FINEST

The New Home of the News Review is a Beauty.

### A HANDSOME PRESS ADDED

The Equipment Now Far Surpasses Any in This Part of the Country—The Newspaper Department Is Complete and the Job Office Is All That Could Be Asked. How It Was Carried Out.

The NEWS REVIEW can now boast one of the finest newspaper offices in Ohio, one that is well equipped and provided with the most improved machinery and appliances.

The quarters are located in the First National Bank building on Washington street and occupy the basement and south side of the handsome structure. Partitions have divided the long store room into a series of convenient offices, and it is here that the work of getting out the NEWS REVIEW every day is carried on. The front portion of the building makes the business and editorial rooms. A partition divides it, so there is ample room for both. The door from the street enters the main room, from which the business office is divided by a neat railing. A door leads into the editorial room, and the story of the front of the building is told. Immediately in the rear is the composing room. Along the south side, a row of windows give abundant light for work during the day, and a dozen incandescent lights make ample illumination for night. F. Leslie Trumpas foreman has charge of this department, and the convenient manner in which cases, imposing stones, proof press and desk are arranged, shows the neatness of his system and the exacting perfectness which always crops out in his work. The composing room is fitted out with all that is necessary to make a complete newspaper, and there is never delay for lack of tools or materials.

The next room is occupied by the job printing department, over which U. G. King has charge. Mr. King has gained a reputation for his skill as a printer, and his artistic ability has been seen on many occasions in the city. Immediately in the rear of this will be built as soon as possible a repository for waste paper, and the thousand and one other accumulations of a well regulated newspaper office. This ends the first story and the sight-seer can go to the basement.

Here is perhaps the neatest and best arrangement of the whole office. At one end is the large newspaper press, and near it is the splendid new gas engine. It possesses eight horse power and can be run at a marvelously low cost. No steam is used whatever, and the danger of accident is reduced to a minimum. The engine makes very little noise, and a person standing 50 feet away could not tell that the machine was in operation. It was made by the Crouch company of New Brighton, and is the most improved piece of machinery on the market. Nearby is the cutter, also operated by power from the engine, and a fine piece of machinery. Not far from the press is the elevator, which takes the forms from the press when an edition of the paper has been printed, to the composing room above. Beside it is the sink where the forms are washed, and not far away is the entrance to the stock room. Here is kept the paper used every day in the newspaper and job departments, and it is a room of which the custodian should be proud. The floor is neatly covered with linoleum, and shelves against one wall allow space for the more expensive stock, while a long table on the other side gives ample space for unpacking and arranging. A door at the other end leads to the street, and allows paper to be delivered from the wagon without disturbing any other part of the office. Parallel to this room is the apartment allotted the newsboys. Here they receive their papers, and start out each evening with all the news neatly tucked under their hard working little arms. It is well lighted, and calculated to become a popular place for the youngsters.

This finishes the basement, where Mr. John Powell, the pressman, has the authority of a crowned king, but a portion of his domain is on the other floor. It is the space allotted to the job presses. Here are two small jobbers for the smaller work, and beside them rests the handsomest and finest piece of printing machinery in the country. It is what is known as a Century pony cylinder, and a beauty it is. The frame is of the best and stoutest materials, and the press is provided with every improvement known to modern science. It has a capacity of 3,000 an hour, and can be forced to even a higher figure

if necessary. The bed movement is something new, and so constructed as to reduce the jar to a minimum. The machine runs as easily and as noiselessly as a sewing machine, yet does the work in a manner calculated to warm the cockles of the pressman's heart. The first press of this kind was built a year ago by the Campbell company, and so well has it met public favor that the shops have been rushed with orders. In the finest offices in Pittsburgh there are six of these presses, and none are admired more. The machine is intended for the best and finest of color and half-tone work, and has been eminently successful. The purchase places the NEWS REVIEW in position to do this class of work better than any one in this section. With competent workmen, and these are always in every department of this office, and the splendid equipment now in position, the NEWS REVIEW will hold its own with any foreign office. Job printing of every character, no matter how fine or fastidious the taste of the customer, will be done at shortest notice, and in a manner well calculated to please. All work is guaranteed, and anything from the finest pottery printing to the cheaper grades for street advertising will be quickly done. Mr. Albert Merkl, the erecting machinist, who came on from Chicago and superintended the erection of this famous Century pony press, has been with the Campbell company for the past 16 years. He is an artist in his line, and the NEWS REVIEW proprietors are much pleased with his work here.

And this is the new home of the NEWS REVIEW. It is a marvel of convenience and comfort, and the men who daily make the newspaper will not be handicapped by what they found after moving day. On the other hand, the modern and up to date improvements found in all parts of the office will serve to increase the effort and make the NEWS REVIEW even better than it has been in the past. All the news all the time is the motto of the NEWS REVIEW, and it is a watchword that will be followed as closely and as carefully as hard work and earnest effort will allow. As in the past, the NEWS REVIEW will hew to the line, confident in the belief that success can only be found in years of patient toil, when that toil is aided by all the improvement that modern ingenuity and a thorough knowledge of newspapers and newspaper work can bring forth.

### A HANDSOME GAVEL

Presented Speaker Sleeper By Representative Ashford.

At the conclusion of Speaker Sleeper's address in Columbus the other day, Representative Ashford, of this county, in a neat speech presented him with a gavel which is composed of 10 varieties of wood, nine of which came from the Hawaiian Islands and the other a piece of catapwa, which was taken from a post set by General William H. Harrison at Vincennes, Ind., in building a stockade against the Indians, while governor of the Northwest territory, in or about the year 1806, having remained in the ground over 80 years.

### A WOMAN DID IT.

Mrs. Saltzman Had the Mingo Quarantine Raised.

The quarantine which Mingo declared against this city has been raised, and merchandise can now be shipped to that point. Mrs. Saltzman, who moved from here to that place, could not have her household goods shipped, and she made several inquiries. The board of health steadily refused to allow her to have her goods sent there, but she maintained the siege, and caused them to investigate. When the health authorities looked into the matter they decided there was no danger from this point.

### AFTER RIGHT OF WAY.

The Phoenix Telephone Company Has Not Given Up.

The Phoenix company has not given up the battle for a foothold in this city in spite of the silence that has hung over its officials since council amended the franchise and asked 12 instruments for city use. The last move was made at a meeting of Wells-ville's council, when a right of way through the town was asked. The matter was referred to the ordinance committee, but the solicitor was ill, and could not attend to the matter, so it was deferred, which means more delay for the Phoenix.

### A Good Season Promised.

Bicycle agents are beginning to come to the city with their models for '96, and almost every day one or more arrives at the hotels. The interest shown by the cranks in this city assures a sale of wheels almost equal to that of last year.

## RESPECTED AT HOME

But the Heroine Bears a Bad Reputation Here.

### WICKED COMPANIONS THE CAUSE

Her Parents Imagined She Was a Hard Working Girl in a Pottery. When She Was in Reality a Very Rough Character. A Rude Awakening For Her Parents.

Truth is oftentimes stranger than fiction, but it seldom happens that the extremes of the following story are found in real life.

Not long ago there came here from a town in Beaver county a young woman who was universally respected at home. She always behaved herself very well, and had as many friends as the ordinary young girl. Her parents imagined she was always good, and cared for her at home as well as for any other member of the family. After a time she expressed a desire to come to this city, giving as an excuse that she had no longer a desire to be a burden and wanted to earn her own living. She explained she would be well taken care of here at the home of her aunt, and the arrangement was made. The girl came to town, and instead of going to the home of her aunt entered a notorious dive in the city, and there she remained. Her aunt in blissful ignorance of her presence in the city, did not know the girl was writing home each week, and detailing the pleasures of life in a pottery. After a time she became one of the most notorious characters in town, and eventually found her way to police court. She had used an assumed name since coming here, and had no fear that her aunt would discover her presence here, but she was seen on the street by someone who knew her, and the aunt was informed. She went to city hall, and there learned the truth from the authorities. The woman wept in sorrow, but did not send the news to Beaver. She kept her secret and has done all in her power to keep the facts from becoming known. The father of the girl is known and respected in this city, and the few people who know of the matter are hoping that he will never hear the truth.

### AFTER OFFICE.

Liverpool Men Expect To Be In the Fight.

Mark Bough, very well known in the city, announces himself today as a candidate for street commissioner.

John N. Smith, the well known carpenter, is announced today as a candidate for commissioner. It has been a long time since East Liverpool was represented on the board, and Mr. Smith's friends are determined to make him a winner.

A. H. Clark, city solicitor, appears before the public this evening as a pronounced candidate for probate judge. Mr. Clark has practiced law for many years in the county, and has long been known in every township. He is long after the office with determination and possesses many friends to help him along.

### THEY'RE OFF.

The Candidates For County Offices Have Started.

The meeting of the county committee at Lisbon yesterday was the opening of the campaign which precedes the Republican primaries. Many candidates attended the meeting, and today started for different parts of the county, where they will push their work seeking votes and favor. E. M. Crosser, who is after the position of recorder with an earnestness which can not be denied, has left his business in this city in good hands, and is now after his friends. He expects to spend three months at the work.

### FELL IN THE RIVER.

An Unpleasant Experience With Cold Water.

Washington Johnson, a clerk employed at a Third street grocery, was dumped into the river from a boat and

had an unpleasant experience. The boat was filled with empty milk cans, and on one of these he sat as he rowed. The motion of the boat upset the can and Johnson went into the river. Fortunately he had sufficient presence of mind to keep above the surface, and succeeded in getting back into the boat, but the cold water had thoroughly chilled him.

### TWO WEDDINGS.

They Took Place Last Night and This Morning.

John Gilchrist, of Second street, and Miss Ella Hague, of Third street, were married by Rev. C. W. Huffer at the residence of James Douglass last evening. They will begin house-keeping on Second street at once.

Charles Beam, who made many friends here while in the employ of the light company, was married today to Miss Retta A. Richardson, at the residence of Dr. J. M. Huston. They left this morning for Columbus, where they will in future reside.

### ANOTHER FRANCHISE.

McGhie & Moore Have Captured a Nice Plum.

McGhie & Moore have captured another franchise for a telephone exchange, and will soon have a force at work putting in the system. The town is down the river and enough subscribers have already been secured to make the plan a success, and the gentlemen will waste no time in giving the town a good service. The system will be the same as that used at Sistersville which is now in good order and giving satisfaction.

### WILL RETURN.

Harry Hughes Has Not Left Town Forever.

A story was circulated on the streets today that Harry Hughes, the Fourth street saloonist, had left town, and would not return. His financial condition was given as the cause of his disappearance. A reporter called on Mrs. Hughes this afternoon and learned that her husband was out of the city on business and would return next week. Mrs. Hughes said that he was only away looking after some private matters, and would be back at the appointed time.

### FOUR FINE BLOCKS.

C. C. Thompson Will do Some Building This Year.

The first heard of the promised boom appeared today when it became known that C. C. Thompson will add to his possessions by building a row of brick houses on Thompson hill. Each will contain four rooms and a basement kitchen, and there will be two houses in each block. The site selected by Mr. Thompson, provided he builds, is a beautiful one, and will make an acceptable spot for people who rent.

### NO HELP.

Solicitor Clark Will Prosecute the Thompson Case Alone.

Detective Huckle, accompanied by Reverend Hodgson called on Solicitor Clark this morning, and asked if it would not be better for him to have an associate counsel in the prosecution of the Thompson case on Friday. Mr. Clark thought he could get along very well himself, and declined to be assisted, on the ground that it would be a reflection upon his professional ability.

### THE CEILING DROPPED.

A Damaging Accident in a Diamond Jewelry Store.

The ceiling in the store of F. W. Poland was kind enough to fall last night, or, at least, the plastering came tumbling down on the show cases. Some glass was broken and the place made unfit for business, but the damage was not great. It will be repaired as soon as possible by an iron ceiling taking the place of the other.

### DESTROYED THE PLANT.

A Brick Company at Empire Sustain Heavy Loss.

Word came from down the river this morning that the brick plant of the Stratten company, located near Empire, was destroyed by fire at an early hour. How the fire started is a mystery which has not yet been solved. The loss amounts to \$10,000, on which there is some insurance. It is not known whether the company will rebuild.

### Installing Officers.

The Blue lodge, Masons, installed officers last night, and spent a pleasant evening.

The Knights of Pythias installed the new officers last night. A large number of members were present, and the meeting was a pleasant occasion. They will banquet before the month is over.

## LEFT THE DOOR OPEN

Then a Thief Came in and Took Some Money.

### IT WAS ALL JAMES SCOTT HAD

And He Had to Have the Wheeling People Send Him Home—The Unpleasant and Unprofitable Experience of a Deck Hand Down the River.

James E. Scott, an East Liverpool man, well known in the lower part of the city, is home from Wheeling, a wiser and poorer man.

Scott has been employed at different potteries for a number of years, but the other day decided he would take a trip on the river. Accordingly he shipped on the George Wood as a deckhand. He went to Cincinnati, and reached Bellaire on the return journey, when the river became so blocked with ice that the boat was tied up and the crew discharged. Scott went to Wheeling, and slept at a hotel. He neglected to lock the door of his room, and when he awoke in the morning it was to find that his watch had been taken and \$22 that was in his pocket had disappeared. The loss was reported to the police, and an effort was made to locate the thief, but without avail. Scott had nothing when the thief got down with him, and the people at Wheeling sent him here. There is no clue to the man who did the stealing, but the next time Scott stops in a hotel he will lock the door.

### Embarrassed the Groom.

A large number of Thomas Corcoran's friends were at the depot yesterday evening to see Mr. and Mrs. Corcoran well on their way to Pittsburgh. They had an abundance of rice, and gave out the information that they were going with the happy couple. The train does not usually stop at East End, and Mr. Corcoran believed he would have his enthusiastic friends all the way to Pittsburgh and was greatly relieved when he learned they had arranged to leave the train at East End.

### Will be Opened Tuesday.

The Brunt Opera House will be opened next Tuesday evening and a number of invitations will be sent to society people in the city tomorrow. Wolf's full orchestra will provide music for the dancers, and an excellent program will be rendered. The occasion will be among the chief society events of the season, and Manager Harry Smith is sparing neither money nor effort to make it a success.

### Came Home a Cripple.

James Miller, a well-known resident of this city, was visiting friends in Carroll county a few months ago, when he was attacked by paralysis and disabled. His organs of speech were affected, and he could not walk. He is now at home in this city, and is still a sick man.

### Got the Money.

Landlord Will Stewart got home from Butler, Pa., last evening, where he followed the "Killarney" company that played here on Saturday evening. He had a bill against the manager, and it was paid.

### Captain Freese Here.

Captain Freese was here last night on business connected with the proposed Canton and East Liverpool road, and left this morning for Canton. He will return before the week is over.

### He Wore a Coat of Blue.

A farmer arrayed in a coat of bright blue was in town today, and caused no end of comment. His coat was the center of all eyes, the collar being the brightest possible shade.

### Strike Situation Unchanged.

President Hughes, of the Brotherhood said that the strike situation is unchanged at Timm. The number of men affected is 150, and they have not yet gone to work.

### Counting the Cost.

Roth Forward, an insurance man from Cincinnati, is in town today looking over the ruins of the Rinehart building and counting the cost for his company, the Aetna.

### Wrestling With a Boil.

The genial Harry Smith is suffering with a boil on the back of his neck, just at that point where a movement of the head causes the most acute pain.

### Through the Ice.

Frank Dickey got a ducking in East End today by breaking through the ice. He was not hurt, but suffered from the cold water.

### THEY'RE OFF.

The Candidates For County Offices Have Started.

The meeting of the county committee at Lisbon yesterday was the opening of the campaign which precedes the Republican primaries. Many candidates attended the meeting, and today started for different parts of the county, where they will push their work seeking votes and favor. E. M. Crosser, who is after the position of recorder with an earnestness which can not be denied, has left his business in this city in good hands, and is now after his friends. He expects to spend three months at the work.

### FELL IN THE RIVER.

An Unpleasant Experience With Cold Water.

Washington Johnson, a clerk employed at a Third street grocery, was dumped into the river from a boat and

had an unpleasant experience. The boat was filled with empty milk cans, and on one of these he sat as he rowed. The motion of the boat upset the cans and Johnson went into the river. Fortunately he had sufficient presence of mind to keep above the surface, and succeeded in getting back into the boat, but the cold water had thoroughly chilled him.

### TWO WEDDINGS.

They Took Place Last Night and This Morning.

John Gilchrist, of Second street, and Miss Ella Hague, of Third street, were married by Rev. C. W. Huffer at the residence of James Douglass last evening. They will begin house-keeping on Second street at once.

Charles Beam, who made many friends here while in the employ of the light company, was married today to Miss Retta A. Richardson, at the residence of Dr. J. M. Huston. They left this morning for Columbus, where they will in future reside.

### ANOTHER FRANCHISE.

McGhie & Moore Have Captured a Nice Plum.

McGhie & Moore have captured another franchise for a telephone exchange, and will soon have a force at work putting in the system. The town is down the river and enough subscribers have already been secured to make the plan a success, and the gentlemen will waste no time in giving the town a good service. The system will be the same as that used at Sistersville which is now in good order and giving satisfaction.

### WILL RETURN.

Harry Hughes Has Not Left Town Forever.

A story was circulated on the streets today that Harry Hughes, the Fourth street saloonist, had left town, and would not return. His financial condition was given as the cause of his disappearance. A reporter called on Mrs. Hughes this afternoon and learned that her husband was out of the city on business and would return next week. Mrs. Hughes said that he was only away looking after some private matters, and would be back at the appointed time.

### FOUR FINE BLOCKS.

C. C. Thompson Will do Some Building This Year.

The first heard of the promised boom appeared today when it became known that C. C. Thompson will add to his possessions by building a row of brick houses on Thompson hill. Each will contain four rooms and a basement kitchen, and there will be two houses in each block. The site selected by Mr. Thompson, provided he builds, is a beautiful one, and will make an acceptable spot for people who rent.

### NO HELP.

Solicitor Clark Will Prosecute the Thompson Case Alone.

Detective Huckle, accompanied by Reverend Hodgson called on Solicitor Clark this morning, and asked if it would not be better for him to have an associate counsel in the prosecution of the Thompson case on Friday. Mr. Clark thought he could get along very well himself, and declined to be assisted, on the ground that it would be a reflection upon his professional ability.

### THE CEILING DROPPED.

A Damaging Accident in a Diamond Jewelry Store.

The ceiling in the store of F. W. Poland was kind enough to fall last night, or, at least, the plastering came tumbling down on the show cases. Some glass was broken and the place made unfit for business, but the damage was not great. It will be repaired as soon as possible by an iron ceiling taking the place of the other.

### DESTROYED THE PLANT.

A Brick Company at Empire Sustain Heavy Loss.

Word came from down the river this morning that the brick plant of the Stratton company, located near Empire, was destroyed by fire at an early hour. How the fire started is a mystery which has not yet been solved. The loss amounts to \$10,000, on which there is some insurance. It is not known whether the company will rebuild.

### Installing Officers.

The Blue lodge, Masons, installed officers last night, and spent a pleasant evening.

The Knights of Pythias installed the new officers last night. A large number of members were present, and the meeting was a pleasant occasion. They will banquet before the month is over.

## LEFT THE DOOR OPEN

Then a Thief Came in and Took Some Money.

### IT WAS ALL JAMES SCOTT HAD

And He Had to Have the Wheeling People Send Him Home—The Unpleasant and Unprofitable Experience of a Deck Hand Down the River.

James E. Scott, an East Liverpool man, well known in the lower part of the city, is home from Wheeling, a wiser and poorer man.

Scott has been employed at different potteries for a number of years, but the other day decided he would take a trip on the river. Accordingly he shipped on the George Wood as a deckhand. He went to Cincinnati, and reached Bellaire on the return journey, when the river became so blocked with ice that the boat was tied up and the crew discharged. Scott went to Wheeling, and slept at a hotel. He neglected to lock the door of his room, and when he awoke in the morning it was to find that his watch had been taken and \$22 that was in his pocket had disappeared. The loss was reported to the police, and an effort was made to locate the thief, but without avail. Scott had nothing when the thief got done with him, and the people at Wheeling sent him here. There is no clue to the man who did the stealing, but the next time Scott stops in a hotel he will lock the door.

### Embarrassed the Groom.

A large number of Thomas Corcoran's friends were at the depot yesterday evening to see Mr. and Mrs. Corcoran well on their way to Pittsburgh. They had an abundance of rice, and gave out the information that they were going with the happy couple. The train does not usually stop at East End, and Mr. Corcoran believed he would have his enthusiastic friends all the way to Pittsburgh and was greatly relieved when he learned they had arranged to leave the train at East End.

### Will be Opened Tuesday.

The Brunt Opera House will be opened next Tuesday evening and a number of invitations will be sent to society people in the city tomorrow. Wolf's full orchestra will provide music for the dancers, and an excellent program will be rendered. The occasion will be among the chief society events of the season, and manager Harry Smith is sparing neither money nor effort to make it a success.

### Came Home a Cripple.

James Miller, a well-known resident of this city, was visiting friends in Carroll county a few months ago, when he was attacked by paralysis and disabled. His organs of speech were affected, and he could not walk. He is now at home in this city, and is still a sick man.

### Got the Money.

Landlord Will Stewart got home from Butler, Pa., last evening, where he followed the 'Kilmarney' company that played here on Saturday evening. He had a bill against the manager, and it was paid.

### Captain Freese Here.

Captain Freese was here last night on business connected with the proposed Canton and East Liverpool road, and left this morning for Canton. He will return before the week is over.

### He Wore a Coat of Blue.

A farmer arrayed in a coat of bright blue was in town today, and caused no end of comment. His coat was the center of all eyes, the collar being the brightest possible shade.

### Strike Situation Unchanged.

President Hughes, of the Brotherhood said that the strike situation is unchanged at Tiffin. The number of men affected is 150, and they have not yet gone to work.

### Counting the Cost.

Roth Forward, an insurance man from Cincinnati, is in town today looking over the ruins of the Rinehart building and counting the cost for his company, the Aetna.

### Wrestling With a Boil.

The genial Harry Smith is suffering with a boil on the back of his neck, just at that point where a movement of the head causes the most acute pain.

### Through the Ice.

Frank Dickey got a ducking in East End today by breaking through the ice. He was not hurt, but suffered from the cold water.

EAST LIVERPOOL, O., WEDNESDAY, JAN. 8.

For President,  
WILLIAM MCKINLEY,  
Of Ohio.

The proud cavaliers of Spain seem to  
have struck an awkward snag in this  
matter of fact hemisphere.

In the words of the race track the  
candidates of Columbiana county are  
off. Now let them keep the pace, and  
there will be a brilliant finish.

MR. CAMPBELL, who last fall seemed  
anxious to be governor of Ohio, has  
flashed again in the pan, and after  
the election of Mr. Foraker will drop  
out of sight so far as political position  
is concerned.

INCREASE the tariff and there will  
be no necessity for bond issues. The  
treasury would be benefited and in-  
cidentally the pottery industry would  
feel a great rush in the volume and  
value of business.

WHEN Mr. Sleeper thanked the  
house of representatives for the posi-  
tion of speaker the other day he told  
them: "You are the servants of a  
great state with a commission of al-  
most unlimited power for good or  
evil. Acquit yourselves nobly." It  
is sincerely hoped the members will  
not forget the words of Mr. Sleeper.

### NEWS REVIEW CODE.

The public at large can have it in a  
nut shell. The News Review be-  
lieves in the prosperity of the nation  
at large and East Liverpool in par-  
ticular. In the enforcement of law and  
order in municipal affairs. In the  
punishment of crime when the criminals  
are detected and arrested. In  
putting a quietus on illegal liquor  
selling, no matter upon whom punish-  
ment falls. In the suppression of  
houses of ill fame and of gambling  
dens. In placing genuine names upon  
the mayor's docket when arrests are  
made and when the officials identify  
the prisoners. In the punishment of  
criminals, in accordance with the  
ordinances and laws, no matter who  
the offenders may be or what their  
station in life. In equal justice to all,  
rich or poor, high or low.

### LOCAL INDEBTEDNESS.

The last message of Governor Mc-  
Kinley to the legislature is a state  
paper which covers a vast deal of busi-  
ness connected with the government  
of Ohio, and shows a power for solid,  
sober thought on the part of the  
governor. Of all the subjects men-  
tioned, perhaps there is none which  
will appear with more force to the  
public than the expression regarding  
local indebtedness. He believes that  
not a dollar should be laid upon the  
community without the approval of  
the taxpayers, and the governor is  
right. There has been far too much  
of this thing in the past, and Ohio is  
nearing that point where it can not  
endure it longer. Public business  
should not be transacted in a loose,  
slipshod manner, simply because it  
will gratify a few or please the vanity  
of some legislator anxious to shine as  
the champion of advancement in his  
own community. Extravagance is  
not enterprise, and a town unable to  
afford a big debt should not have it.  
If it were possible to inoculate every  
legislature Ohio is to have from the  
present time to the end of the next  
century with a little solid, business  
sense, the state would see the im-  
provement. There would not be so  
many spread eagle speeches, but there  
would be a vast decrease in local in-  
debtedness.

Many stubborn and aggravating  
cases of rheumatism that were be-  
lieved to be incurable and accepted as  
life legacies, have yielded to Cham-  
berlain's Pain Balm, much to the sur-  
prise and gratification of the suf-  
ferers. One application will relieve  
the pain and suffering and its con-  
tinued use insures an effectual cure.

## RESERVE VERY LOW.

Our Gold Still Going Europe-  
ward.

### HEAVIER EXPORTATIONS FEARED.

No Remedy Yet, as the New Bond Issue  
Cannot Be Closed For 30 Days—The  
Reserve Now Down to \$58,326,710.  
Likely to Go Much Lower.

WASHINGTON, Jan. 8.—The treasury  
has lost \$2,163,000 in gold bars, and  
\$1,096,000 in gold coin, and received  
from the Mercantile National bank of  
New York \$900,000 in exchange for cur-  
rency, making the net loss for the day  
\$2,759,000. This leaves the true  
amount of the reserve at the close of  
business \$58,326,710. In financial cir-  
cles here the fear is expressed that  
these heavy withdrawals are but the  
beginning of heavy exportations.

It is recalled that during last Janu-  
ary the withdrawals amounted to  
about \$45,000,000, of which \$30,000,000  
were withdrawn within two weeks, and  
over \$7,000,000 in one day. The fact  
that 30 days must elapse before the new  
bond issue can be closed, and the con-  
tracts awarded seems to add to the  
anxiety heretofore felt, and in some  
quarters the opinion is expressed that  
before the 1st of February arrives the  
gold reserve will have been reduced  
considerably below any point it has  
reached hitherto.

A New York special says: Consider-  
able indecision has been manifested by  
some of the gold shipping houses, and  
additional orders have been given. The  
actual amount to be shipped today is  
\$2,725,000, and this total is below pre-  
vious estimates. It is currently be-  
lieved that the exports for the week  
will exceed \$5,000,000.

### A SPEECH BY VEST.

He Attacks the President and Secretary  
Carlisle—Other Senate Session Features.

WASHINGTON, Jan. 8.—The senate  
has been treated to one of Senator  
Vest's characteristic speeches. He ar-  
raigned the supreme court for the in-  
come tax decision; he laid the responsi-  
bility for the lack of revenue at their  
door when they exempted the "sordid  
wealth of the land" from taxation; he  
contrasted the records of the present  
and past administrations; he threw  
some light upon heretofore unknown  
chapters in the history of the McKin-  
ley law; he denounced the financial  
dependence of this country, and of  
others upon the moneyed influence; he  
attacked the president and the secre-  
tary of the treasury for their propo-  
sition to retire the greenbacks and place  
the circulation in the hands of the na-  
tional banks; quoted Secretary Carlisle  
against himself and, in conclusion, de-  
clared that the conflict between bi-  
metallism and the gold standard was  
irrepressible and that the sooner it was  
decided the better it would be for our  
public and private life.

The other feature of the session grew  
out of the introduction by Mr. Chan-  
dler of a bill for a popular loan through  
the issue of postal savings certificates.  
In the course of Mr. Chandler's re-  
marks the cable replies of the Prince of  
Wales, the Rothschilds and others to  
the New York World were alluded to,  
and Mr. Lodge claimed that the editor  
of the World had been guilty of vio-  
lating section 5,335 of the revised  
statutes in heading communication with  
officials of another government, the  
purpose of which "was to interfere  
with a measure of the United States."  
Mr. Gray of Delaware rebuked both  
Mr. Lodge and Mr. Chandler for the  
suggestion that public opinion could  
not be solicited either here or abroad  
on any question, and affirmed that a  
just public opinion in all civilized  
centers must be the final arbitrator of all  
disputes.

### Anti-Trust Law Bobs Up.

WASHINGTON, Jan. 8.—Another brief  
session of the house was held, at which  
the only important business transacted  
was the admission of the new member  
from the new state of Utah, Mr. Allen,  
and the adoption of resolutions calling  
upon the attorney general for infor-  
mation concerning the enforcement of the  
anti-trust law and for the recommenda-  
tions of new legislation on the subject,  
and on the secretary of the treasury  
for statistics concerning the seal fish-  
eries of the Bering sea.

Entertained the President and Cabinet.

WASHINGTON, Jan. 8.—Secretary of  
State Olney and Mrs. Olney gave a  
dinner to the president and cabinet  
last night at their elegant home on  
Seventeenth street.

### ROME AND EARTHQUAKES.

On the Margin of a Great Seat of Volcanic  
Energy It Resists.

The Eternal City ought to be exempt,  
says the London Standard, from all that  
appears, however remotely, to menace  
its stability and endurance. Yet no one  
who looks from the Janiculum, or even  
the Forum, to the noble outline of the  
Alban hills can well forget that Rome  
is on the margin of a great seat of vol-  
canic energy. The lake of Nemi sleeps  
so serenely in its crater basin that it re-  
quires an effort of imagination to think  
of the time when the whole mountain  
mass was raised. That, of course, be-  
longed to a prehistoric, or rather a pris-  
tine, geological age. But no prescription  
avails against seismic influences.

The fires of Vesuvius had become only  
a tradition—if, indeed, they had not  
been quite forgotten—when the mem-  
orable outburst occurred which sud-  
denly converting its site into a vast ex-  
panse of ashes. Nothing so tragic, it  
may be hoped, is in store for the pleas-  
ant city by the Tiber. Movements of the  
earth have occurred many a time and  
oft, and have done nothing worse than  
give frights to the nervous and feed the  
superstition of the vulgar.

The fall of Caesar was heralded by  
one of these convulsions, but, as far as  
our information goes, the only analogy  
to be cited from a recent experience was  
the precipitate descent of a marble  
shield bearing the arms of Spain. Had  
it been the emblazonry of Portugal, a  
mystic significance might, just now,  
have been suspected. But enough ma-  
terial damage was occasioned to justify  
the concern created. The earthquake  
was no respecter of persons, for it awoke  
the venerable pontiff from his light  
slumbers in the Vatican, and roused the  
inmates of the prisons to frantic efforts  
to break through their barricades. So  
much more precious is life than liberty.

### The Tariff Bill In Caucus.

WASHINGTON, Jan. 8.—The Republi-  
can senatorial caucus on the house  
tariff bill has accomplished nothing.  
The prevailing sentiment appeared to  
be against all amendments and the ten-  
dency favorable to reporting the bill as  
it came from the house. Several sena-  
tors expressed doubts as to the wisdom  
of the bill in any shape, and there was  
an evident disposition to regard the  
bill as purely an emergency measure.

### To Make an Exhibit at Kiel.

WASHINGTON, Jan. 8.—The interna-  
tional exhibition for navigation and  
fisheries to be held at Kiel from May  
13 to Sept. 3, 1896, to Sept. 30, 1896,  
under the auspices of the German gov-  
ernment, is beginning to attract at-  
tention in Washington. Within a few  
days an estimate for \$20,000 will be  
submitted to congress for exhibits.

### The Fleet Big Enough.

WASHINGTON, Jan. 8.—The continued  
reports of the assembling of a large  
United States fleet in Turkish waters  
is discredited by those in a position to  
know the navy department. It is  
pointed out that the fleet already there  
is ample to give any moral effect to  
such urgent demands on Turkey as  
this government might determine upon.

### No Alarm Over the Baltimore.

WASHINGTON, Jan. 8.—No alarm is  
felt at the navy department over the  
U. S. S. Baltimore, reported at San  
Francisco to be overdue. She was  
under sailing orders to stop at Yoko-  
hama, and she had laid up there a  
week for any cause would not yet be  
due.

### English Paper Justifies Our Stand.

LONDON, Jan. 8.—An editorial in The  
Chronicle justifies America's aspira-  
tion to dominate the formation of in-  
ternational law on the American con-  
tinent as England, in her time, domi-  
nated Europe. It says that it must be  
recognized that America never ac-  
quired an inch of civilized territory  
without the consent of its owner.

### Clarke a Gubernatorial Candidate.

BIRMINGHAM, Ala., Jan. 8.—Con-  
gressman R. H. Clarke of the First  
Alabama district, has formally an-  
nounced himself a candidate for the  
Democratic gubernatorial nomination  
on a sound money platform. His op-  
ponent will be Captain Joseph F.  
Johnston, the candidate of the silver  
Democrats.

### To Prevent Undervaluation of Imports.

WASHINGTON, Jan. 8.—The house  
ways and means committee began  
work today on a proposed scheme of  
legislation to prevent undervaluation  
of imports by the customs officials.

## SMITH IS CONFIRMED.

A Lively Session of the State  
Legislature.

### DEMOCRATS HELPED HIM OUT.

The Senate Adopts the Biennial Resolu-  
tions—A Temperance Bill Introduced In  
the House—The Democratic Caucus Re-  
nominate Brice For U. S. Senator.

COLUMBUS, Jan. 8.—If the legislature  
now in session continues to be as inter-  
esting and dramatic as it has started  
out to be, it will be one of the most  
famous general assemblies ever con-  
vened in the state of Ohio.

It is, of course, overwhelmingly Re-  
publican in both branches, but the  
events indicate that unless the majority  
gets together the Democrats will hold  
the balance of power in the senate,  
though they number but six.

The majority broke loose as the re-  
sult of the long-standing feeling over  
the confirmation of State Librarian  
Joseph P. Smith, who was nominated  
for his present position during the last  
year and not confirmed because there  
was but one session of the last assem-  
bly. Mr. Smith has been known far  
and near as the friend and counselor of  
Mr. McKinley, and in such relations he  
has made enemies in his own party.  
These undertook to turn him down by  
refusing to confirm him.

In some quarters this has been con-  
sidered a slap at the presidential am-  
bitions of Mr. McKinley, but such a  
construction can hardly be placed upon the  
circumstance. Mr. Smith was con-  
firmed by one vote, that one being a  
Democrat.

The senate adopted the biennial resolu-  
tions. The house also took a hand  
at the same thing and will probably  
adopt it also.

The first temperance bill has been in-  
troduced. It prohibits the sale of  
liquors in restaurants, eatinghouses  
and cafes, and is fathered by one of  
the preacher members of the house.  
It is proposed to divide the saloons and  
restaurants. The Monroe doctrine was  
indorsed in the house.

The Republicans will hardly hold a  
senatorial caucus, as the state conven-  
tion indorsed Foraker for senator, and  
all that now remains to be done is to  
vote for him.

The Democratic caucus for the honor  
of the senatorial nomination was pre-  
sided over by Senator Hyssell.

When the voting was announced the  
free silver people nominated a man of  
their own in the person of Dr. Isaac  
Kagy of Seneca county, and declared  
they would support him on the princi-  
ple of 16 to 1. This was just about the  
relative strength they displayed in the  
caucus. In all there were 31 members  
in both branches, and of these 26 were  
present. Mr. Brice received the votes  
of 21 and Mr. Kagy 5. The nomi-  
nation was then made unanimous.

The senate adopted resolutions in  
honor of the late Allen G. Thurman.

### APPLIED FOR BONDS.

A Cleveland Bank Makes a Bid For  
\$500,000 Worth of the Issue.

CLEVELAND, Jan. 8.—The National  
Bank of Commerce of this city has  
made application for \$500,000 of the  
new government bonds, and the Cen-  
tral National bank will take \$100,000.  
Other local banks, it is said, will ap-  
ply for large blocks of the bonds. Presi-  
dent Whitelaw, of the National City  
bank said:

"The national banks would take the  
entire issue as quick as a wink if the  
government would remove the restric-  
tions on circulation and allow the  
banks to issue up to the par value of  
the bonds, with lower taxation."

### An Ex-Mayor Suicides.

AKRON, O., Jan. 8.—J. F. Scott, ex-  
mayor of this city, has committed sui-  
cide by hanging himself in his bed-  
room. He had been suffering from  
grip for nearly a year and lately had  
an attack of nervous prostration. He  
had made several previous attempts to  
take his life. The deceased was a  
prominent Odd Fellow.

### Shoe Manufacturers Fail.

PORTSMOUTH, O., Jan. 8.—Padan  
Bros. & Co., manufacturers of ladies'  
shoes, one of the largest houses in the  
west, has assigned to W. B. Griep.  
Assets, \$180,000; liabilities, \$150,000.  
The firm employed 750 hands and had  
17 salesmen. Local creditors are  
protected by mortgages amounting to \$60,-  
000.

### A Divorce Case Settled.

UPPER SANDUSKY, O., Jan. 8.—The  
divorce case of Hattie Hare vs. ex-  
County Treasurer Jay Hare has been  
compromised. The plaintiff was de-  
clared an absolute divorce, \$4,000 cash  
and custody of their little daughter  
received the custody of two boys.

### A Legislator May Be Indicted.

COLUMBUS, Jan. 8.—Judge Pugh has  
charged the grand jury concerning al-  
leged bribery of a member of the last  
legislature. The name is not known.

### Paid Well For His Divorce.

COLUMBUS, Jan. 8.—W. C. Brown  
has been granted a divorce from his  
wife, who was given \$12,000 alimony.  
He is a wholesale druggist.

### SMALL OHIO HAPPENINGS.

Elmer Montgomery of Delaware is in  
jail serving a sentence for pawing his  
sweetheart's watch.

John Jackson, aged 81 years, of Wash-  
ington C. H., was found dead in the yard  
at his home on Temple street.

While at a dance at the residence of  
James Hunt, on Littlewood creek, Perry  
county, John Riddle and George Mayhew  
quarrelled over a young lady and Riddle  
shot Mayhew, killing him on the spot.

Charles Shively, a farmer living near  
Delaware, was seriously injured by a pole  
which was used to bind down a load of  
fodder. The blow drove his upper teeth  
into his head and broke his nose.

The faculty of Wesleyan university re-  
fused to allow the students to attend an  
entertainment given at the opera house  
in Delaware by Company K, Four-  
teenth regiment, O. N. G., on the ground  
that it would be against the rights of the  
Methodist church to allow students of a  
Methodist college to attend a theater.

### FOUR PEOPLE INJURED.

An Electric Car Runs Into a Carriage at  
St. Louis.

ST. LOUIS, Jan. 8.—An electric car on  
the Lindell railway has run into a car-  
riage at Twenty-seventh street and  
Washington avenue, and severely in-  
jured four of its five occupants. The  
carriage was turned over and it and  
the horses and those inside were  
dragged more than half a block before  
the car could be stopped. The injured  
are:

Mrs. Daniel Bergan, head badly cut  
and back severely bruised, may die;  
Miss Mollie Williams, badly cut; John  
Egan, one leg broken and other bruised;  
John Egan, Jr., a boy, shoulder dislo-  
cated and other injuries, serious, and  
John Williams, only slightly hurt.

### Family Snowbound and Starving.

ATCHISON, Kan., Jan. 8.—A letter has  
been received in Atchison saying that  
the family of Frank McCain, formerly a  
merchant here, is snowbound and  
starving in the mountains 15 miles from  
Winthrop, Wash. The letter was writ-  
ten by the oldest son, who, by great  
effort, got through the stormdrifts to  
Winthrop. McCain had become in-  
sane.

### An Important Indian Decision.

OMAHA, Jan. 8.—Judge Shiras of  
Iowa, in federal court at Omaha, has  
rendered a decision declaring that in  
cases where Indians have become citi-  
zens, with all the accompanying privi-  
leges, the government is still bound by  
all treaty stipulations existing while  
tribal relations were sustained.

### Three Tramps Killed.

NEW ORLEANS, Jan. 8.—A freight on  
the Louisville and Nashville road has  
plunged through an open draw on the  
bridge spanning the Rigolets. The en-  
gineer and fireman escaped by jumping  
and swam ag to the lighthouse. Three  
white tramps were killed. A brakeman  
was also hurt.

### Fusion In Louisiana.

ALEXANDRIA, La., Jan. 8.—The Popu-  
lists are arriving for their convention  
today, which, it is understood, will en-  
dorse the Republican nominees for gov-  
ernor, secretary of state and attorney  
general, completing the ticket with  
nominees of their own selection.

### Major Post Dead.

WASHINGTON, Jan. 8.—Major James  
Clarence Post, who was detailed to suc-  
ceed the late General Poe, corps of en-  
gineers in the important government  
public works on the great lakes, has  
died at the home of his father-in-law in  
New York city.

### Diaz Out For Re-Election.

CITY OF MEXICO, Jan. 8.—The move-  
ment for the renomination of President  
Diaz for a term of four years, begin-  
ning the first of next December, is  
growing strong, and clubs and news-  
papers favoring his re-election are being  
founded all over the republic.

### Two Buildings Collapsed.

WINTERSSET, Ia., Jan. 8.—A large two-  
story stone building occupied by C. D.  
Berington & Co., hardware dealers, has  
collapsed, carrying down with it an ad-  
joining building, occupied by the Smith  
Drug company. Several were injured.

### Baltimoreans Want Bonds.

BALTIMORE, Jan. 8.—The local de-  
mand for the new issue of government  
bonds is growing rapidly and it now  
seems probable that \$4,000,000 or \$5,-  
000,000 will be taken here.

### An Old Sport Dead.

KANSAS CITY, Jan. 8.—Charles C.  
Bassett, known to the sporting fraternity  
all over the country, a prominent  
figure in the frontier days of Kansas, is  
dead at Hot Springs, Ark.

**For President,**  
**WILLIAM MCKINLEY,**  
**OF Ohio.**

The proud cavaliers of Spain seem to  
 have struck an awkward snag in this  
 matter of fact hemisphere.

In the words of the race track the  
 candidates of Columbiana county are  
 off. Now let them keep the pace, and  
 there will be a brilliant finish.

MR. CAMPBELL, who last fall seemed  
 anxious to be governor of Ohio, has  
 flashed again in the pan, and after  
 the election of Mr. Foraker will drop  
 out of sight so far as political position  
 is concerned.

INCREASE the tariff and there will  
 be no necessity for bond issues. The  
 treasury would be benefited and inci-  
 dentally the pottery industry would  
 feel a great rush in the volume and  
 value of business.

WHEN Mr. Sleeper thanked the  
 house of representatives for the posi-  
 tion of speaker the other day he told  
 them: "You are the servants of a  
 great state with a commission of al-  
 most unlimited power for good or  
 evil. Acquit yourselves nobly." It  
 is sincerely hoped the members will  
 not forget the words of Mr. Sleeper.

### NEWS REVIEW CODE.

The public at large can have it in a  
 nut shell. The NEWS REVIEW be-  
 lieves in the prosperity of the nation  
 at large and East Liverpool in particu-  
 lar. In the enforcement of law and  
 order in municipal affairs. In the  
 punishment of crime when the criminal  
 is detected and arrested. In  
 putting a quietus on illegal liquor  
 selling, no matter upon whom punish-  
 ment falls. In the suppression of  
 houses of ill fame and of gambling  
 dens. In placing genuine names upon  
 the mayor's docket when arrests are  
 made and when the officials identify  
 the prisoners. In the punishment of  
 criminals, in accordance with the  
 ordinances and laws, no matter who  
 the offenders may be or what their  
 station in life. In equal justice to all,  
 rich or poor, high or low.

### LOCAL INDEBTEDNESS.

The last message of Governor Mc-  
 Kinley to the legislature is a state  
 paper which covers a vast deal of busi-  
 ness connected with the government  
 of Ohio, and shows a power for solid,  
 sober thought on the part of the  
 governor. Of all the subjects men-  
 tioned, perhaps there is none which  
 will appear with more force to the  
 public than the expression regarding  
 local indebtedness. He believes that  
 not a dollar should be laid upon the  
 community without the approval of  
 the taxpayers, and the governor is  
 right. There has been far too much  
 of this thing in the past, and Ohio is  
 nearing that point where it can not  
 endure it longer. Public business  
 should not be transacted in a loose,  
 slipshod manner, simply because it  
 will gratify a few or please the vanity  
 of some legislator anxious to shine as  
 the champion of advancement in his  
 own community. Extravagance is  
 not enterprise, and a town unable to  
 afford a big debt should not have it.  
 If it were possible to inoculate every  
 legislature Ohio is to have from the  
 present time to the end of the next  
 century with a little solid, business  
 sense, the state would see the im-  
 provement. There would not be so  
 many spread eagle speeches, but there  
 would be a vast decrease in local in-  
 debtedness.

Many stubborn and aggravating  
 cases of rheumatism that were be-  
 lieved to be incurable and accepted as  
 life legacies, have yielded to Cham-  
 berlain's Pain Balm, much to the sur-  
 prised and gratification of the suf-  
 ferers. One application will relieve  
 the pain and suffering and its con-  
 tinued use insures an effectual cure.

### RESERVE VERY LOW.

Our Gold Still Going Europe-  
 ward.

### HEAVIER EXPORTATIONS FEARED.

No Remedy Yet, as the New Bond Issue  
 Cannot Be Closed For 30 Days—The  
 Reserve Now Down to \$58,326,710.  
 Likely to Go Much Lower.

WASHINGTON, Jan. 8.—The treasury  
 has lost \$2,163,000 in gold bars, and  
 \$1,096,000 in gold coin, and received  
 from the Mercantile National bank of  
 New York \$100,000 in exchange for cur-  
 rency, making the net loss for the day  
 \$2,759,000. This leaves the true  
 amount of the reserve at the close of  
 business \$58,326,710. In financial cir-  
 cles here the fear is expressed that  
 these heavy withdrawals are but the  
 beginning of heavy exportations.  
 It is recalled that during last Janu-  
 ary the withdrawals amounted to  
 about \$45,000,000, of which \$10,000,000  
 were withdrawn within two weeks, and  
 over \$7,000,000 in one day. The fact  
 that 30 days must elapse before the new  
 bond issue can be closed, and the con-  
 tracts awarded seems to add to the  
 anxiety heretofore felt, and in some  
 quarters the opinion is expressed that  
 before the 1st of February arrives the  
 gold reserve will have been reduced  
 considerably below any point it has  
 reached hitherto.

A New York special says: Consider-  
 able indecision has been manifested by  
 some of the gold shipping houses, and  
 additional orders have been given. The  
 actual amount to be shipped today is  
 \$2,725,000, and this total is below pre-  
 vious estimates. It is currently be-  
 lieved that the exports for the week  
 will exceed \$5,000,000.

### A SPEECH BY VEST.

He Attacks the President and Secretary  
 Carlisle—Other Senate Session Features.

WASHINGTON, Jan. 8.—The senate  
 has been treated to one of Senator  
 Vest's characteristic speeches. He ar-  
 raigned the supreme court for the in-  
 come tax decision; he laid the responsi-  
 bility for the lack of revenue at their  
 door when they exempted the "sordid  
 wealth of the land" from taxation; he  
 contrasted the records of the present  
 and past administrations; he threw  
 some light upon heretofore unknown  
 chapters in the history of the McKin-  
 ley law; he denounced the financial  
 dependence of this country, and of  
 others upon the moneyed influence; he  
 attacked the president and the secre-  
 tary of the treasury for their propo-  
 sition to retire the greenbacks and place  
 the circulation in the hands of the na-  
 tional banks; quoted Secretary Carlisle  
 against himself and, in conclusion, de-  
 clared that the conflict between bi-  
 metalism and the gold standard was  
 irrepressible and that the sooner it was  
 decided the better it would be for our  
 public and private life.

The other feature of the session grew  
 out of the introduction by Mr. Chan-  
 dler of a bill for a popular loan through  
 the issue of postal savings certificates.  
 In the course of Mr. Chandler's re-  
 marks the cable replies of the Prince of  
 Wales, the Rothschilds and others to  
 the New York World were alluded to,  
 and Mr. Lodge claimed that the editor  
 of The World had been guilty of vio-  
 lating section 5,335 of the revised  
 statutes in heading communication with  
 officials of another government, the  
 purpose of which "Was to interfere  
 with a measure of the United States." Mr.  
 Gray of Delaware rebuked both Mr.  
 Lodge and Mr. Chandler for the sug-  
 gestion that public opinion could not  
 be solicited either here or abroad on  
 any question, and affirmed that a  
 just public opinion in all civilized  
 centers must be the final arbitrator of  
 all disputes.

### Anti-Trust Law Bobs Up.

WASHINGTON, Jan. 8.—Another brief  
 session of the house was held, at which  
 the only important business transacted  
 was the admission of the new member  
 from the new state of Utah, Mr. Allen,  
 and the adoption of resolutions calling  
 upon the attorney general for infor-  
 mation concerning the enforcement of the  
 anti-trust law and for the recommenda-  
 tions of new legislation on the subject,  
 and on the secretary of the treasury  
 for statistics concerning the seal fish-  
 eries of the Bering sea.

Entertained the President and Cabinet.  
 WASHINGTON, Jan. 8.—Secretary of  
 State Olney and Mrs. Olney gave a  
 dinner to the president and cabinet  
 last night at their elegant home on  
 Seventeenth street.

### ROME AND EARTHQUAKES.

On the Margin of a Great Seat of Volcanic  
 Energy It Rests.

The Eternal City ought to be exempt,  
 says the London Standard, from all that  
 appears, however remotely, to menace  
 its stability and endurance. Yet no one  
 who looks from the Janiculum, or even  
 the Forum, to the noble outline of the  
 Alban hills can well forget that Rome  
 is on the margin of a great seat of vol-  
 canic energy. The lake of Nemi sleeps  
 so serenely in its crater basin that it re-  
 quires an effort of imagination to think  
 of the time when the whole mountain  
 mass was raised. That, of course, be-  
 longs to a prehistoric, or rather a pris-  
 tine, geological age. But no prescription  
 avails against seismic influences.

The fires of Vesuvius had become only  
 a tradition—if, indeed, they had not  
 been quite forgotten—when the memo-  
 rable outburst occurred which saved  
 Pompeii for the modern world by sud-  
 denly converting its site into a vast ex-  
 pansion of ashes. Nothing so tragic, it  
 may be hoped, is in store for the pleas-  
 ant city by the Tiber. Movements of the  
 earth have occurred many a time and  
 oft, and have done nothing worse than  
 give frights to the nervous and feed the  
 superstition of the vulgar.

The fall of Caesar was heralded by  
 one of these convulsions, but, as far as  
 our information goes, the only analogy  
 to be cited from a recent experience was  
 the precipitate descent of a marble  
 shield bearing the arms of Spain. Had  
 it been the emblazonry of Portugal, a  
 mystic significance might, just now,  
 have been suspected. But enough ma-  
 terial damage was occasioned to justify  
 the concern created. The earthquake  
 was no respecter of persons, for it awoke  
 the venerable pontiff from his light  
 slumbers in the Vatican, and roused the  
 inmates of the prisons to frantic efforts  
 to break through their barricades. So  
 much more precious is life than liberty.

### The Tariff Bill in Caucus.

WASHINGTON, Jan. 8.—The Republi-  
 can senatorial caucus on the house  
 tariff bill has accomplished nothing.  
 The prevailing sentiment appeared to  
 be against amendments and the ten-  
 dency favorable to reporting the bill as  
 it came from the house. Several sena-  
 tors expressed doubts as to the wisdom  
 of the bill in any shape, and there was  
 an evident disposition to regard the  
 bill as purely an emergency measure.

### To Make an Exhibit at Kiel.

WASHINGTON, Jan. 8.—The interna-  
 tional exhibition for navigation and  
 fisheries to be held at Kiel from May  
 13 to Sept. 3, 1896, to Sept. 30, 1896,  
 under the auspices of the German gov-  
 ernment, is beginning to attract atten-  
 tion in Washington. Within a few  
 days an estimate for \$20,000 will be  
 submitted to congress for exhibits.

### The Fleet Big Enough.

WASHINGTON, Jan. 8.—The continued  
 reports of the assembling of a large  
 United States fleet in Turkish waters  
 is discredited by those in a position to  
 know of the navy department. It is  
 pointed out that the fleet already there  
 is ample to give any moral effect to  
 such urgent demands on Turkey as  
 this government might determine upon.

### No Alarm Over the Baltimore.

WASHINGTON, Jan. 8.—No alarm is  
 felt at the navy department over the  
 U. S. S. Baltimore, reported at San  
 Francisco to be overdue. She was  
 under sailing orders to stop at Yoko-  
 hama, and she had laid up there a  
 week for any cause would not yet be  
 due.

### English Paper Justifies Our Stand.

LONDON, Jan. 8.—An editorial in The  
 Chronicle justifies America's aspira-  
 tion to dominate the formation of in-  
 ternational law on the American con-  
 tinent as England, in her time, domi-  
 nated Europe. It says that it must be  
 recognized that America never ac-  
 quired an inch of civilized territory  
 without the consent of its owner.

Clarke a Gubernatorial Candidate.  
 BIRMINGHAM, Ala., Jan. 8.—Con-  
 gressman R. H. Clarke of the First  
 Alabama district, has formally an-  
 nounced himself a candidate for the  
 Democratic gubernatorial nomination  
 on a sound money platform. His op-  
 ponent will be Captain Joseph F.  
 Johnston, the candidate of the silver  
 Democrats.

### To Prevent Undervaluation of Imports.

WASHINGTON, Jan. 8.—The house  
 ways and means committee began  
 work today on a proposed scheme of  
 legislation to prevent undervaluation  
 of imports by the customs officials.

# SMITH IS CONFIRMED.

A Lively Session of the State  
 Legislature.

### DEMOCRATS HELPED HIM OUT.

The Senate Adopts the Biennial Resolu-  
 tions—A Temperance Bill Introduced In  
 the House—The Democratic Caucus Re-  
 nominate Brice For U. S. Senator.

COLUMBUS, Jan. 8.—If the legislature  
 now in session continues to be as inter-  
 esting and dramatic as it has started  
 out to be, it will be one of the most  
 famous general assemblies ever con-  
 vened in the state of Ohio.

It is, of course, overwhelmingly Re-  
 publican in both branches, but the  
 events indicate that unless the majority  
 gets together the Democrats will hold  
 the balance of power in the senate,  
 though they number but six.

The majority broke loose as the re-  
 sult of the long-standing feeling over  
 the confirmation of State Librarian  
 Joseph F. Smith, who was nominated  
 for his present position during the last  
 year and not confirmed because there  
 was but one session of the last assem-  
 bly. Mr. Smith has been known far  
 and near as the friend and counselor of  
 Mr. McKinley, and in such relations he  
 has made enemies in his own party.  
 These undertook to turn him down by  
 refusing to confirm him.

In some quarters this has been con-  
 sidered as a slap at the presidential an-  
 ticipation of McKinley, but such a con-  
 struction can hardly be placed upon the  
 circumstance. Mr. Smith was con-  
 firmed by one vote, that one being a  
 Democrat.

The senate adopted the biennial resolu-  
 tions. The house also took a hand  
 at the same thing and will probably  
 adopt it also.

The first temperance bill has been in-  
 troduced. It prohibits the sale of  
 liquors in restaurants, eatinghouses  
 and cafes, and is fathered by one of  
 the preacher members of the house.  
 It is proposed to divide the saloons and  
 restaurants. The Monroe doctrine was  
 invoked in the house.

The Republicans will hardly hold a  
 senatorial caucus, as the state conven-  
 tion endorsed Foraker for senator, and  
 all that now remains to be done is to  
 vote for him.

The Democratic caucus for the honor  
 of the senatorial nomination was pre-  
 sided over by Senator Hysell.

When the voting was announced the  
 free silver people nominated a man of  
 their own in the person of Dr. Isaac  
 Kagy of Seneca county, and declared  
 they would support him on the princi-  
 ple of 16 to 1. This was just about the  
 relative strength they displayed in the  
 caucus. In all there were 31 members  
 in both branches, and of these 26 were  
 present. Mr. Brice received the votes  
 of 21 and Mr. Kagy 5. The nomina-  
 tion was then made unanimous.

The senate adopted resolutions in  
 honor of the late Allen G. Thurman.

### APPLIED FOR BONDS.

A Cleveland Bank Makes a Bid For  
 \$500,000 Worth of the Issue.

CLEVELAND, Jan. 8.—The National  
 Bank of Commerce of this city has  
 made application for \$500,000 of the  
 new government bonds, and the Cen-  
 tral National bank will take \$100,000.  
 Other local banks, it is said, will ap-  
 ply for large blocks of the bonds. Presi-  
 dent Whitelaw, of the National City

 banks to issue up to the par value of  
 the bonds, with lower taxation."

GOADED BY GERMANY.

England Likely to Declare War Against Her Neighbor.

THE YOUNG EMPEROR IS DEFIANT.

He Declares His Purpose to Refuse to Recognize Great Britain's Suzerainty over the Transvaal Republic, Abrogating the 1884 Treaty.

BERLIN, Jan. 8.—At a special audience which Dr. W. J. Leyds, the secretary of state of the Transvaal, had with Emperor William, his majesty declared that he would not recognize any claim of suzerainty over the Transvaal Republic, Great Britain, by the treaty of 1884, claims suzerainty over the Transvaal republic.

A London special says: The Globe prints some sensational news under the following headline: "Activity in the War Office." "Anticipated Military Measures." The Globe then states that the war office has sent a special military messenger to the colonial office and that it is rumored important orders are impending.

A dispatch received here from the military camp at Aldershot says that the general belief, almost backed by proof, prevails there that the authorities are considering the mobilizing of the army reserves and part of the militia. The men employed in the ordnance stores are all very busy.

There is scarcely any doubt but that, after due investigation and deliberation, England will declare war again. Germany for the emperor's refusal to further recognize the suzerainty of Great Britain over the Transvaal republic, this right being accorded by treaty. The action of Emperor William in telegraphing congratulations to President Kruger for his victory over Jameson's force was a serious breach of diplomatic usage.

Popular feeling in favor of Dr. Jameson is running very high in London.

The Times, for example, says: "The march will remain a glorious tradition for the Anglo-Saxon race."

A dispatch received by the colonial secretary, Mr. Chamberlain, from Sir Hercules Robinson, says that the arms and ammunition of the British Chartered company's forces at Bulawayo have been placed in the custody of the representative of the queen of Great Britain.

The feeling here against Emperor William and Germany on account of the former's dispatch of congratulatory telegrams to President Kruger, apparently ignoring British suzerainty over the Transvaal republic, continues among all classes of people, and the war sentiment against Germany rises as the time passes. Lady Warwick has written a letter to The Times on the subject. It is understood the arsenal and dockyards are being overhauled.

Emperor William is a member of several exclusive English clubs, including the Royal yacht Squadron, and in some of them the demand for his expulsion is already very loud.

Letters have also been published in the newspapers demanding that he resign his co-ownership in the Royal dragons. There is no truth in the story that the British government was hurriedly drawing troops to Capetown from neighboring British colonies instead of from so distant a country as India.

Building and Loan Man Arrested.

CINCINNATI, Jan. 8.—Edgar J. Shaw, president and manager of the Architects' and Builders' Loan association, has been bound over to \$5,000 by United States Commissioner Hopper, in default of which Shaw went to jail. Shaw has been doing a big business, and advertised \$100,000 capital stock. It developed that he had no capital stock and the directors were merely nominal. Many complaints were received of no returns. Shaw used the mails for advertising and was arrested for using the mails for fraudulent purposes.

Found Dead and Robbed.

CLEVELAND, Jan. 8.—Albert Wolf, a wealthy farmer of West Dover, has been found dead under the Nickel Plate railroad trestle, two miles west of Rocky river. A bloody coat was discovered a mile away and foot prints in the snow leading to it from the trestle. Wolf had had a large roll of money with him, but on his dead body only 60 cents was found.

Scared by a Pet Bear.

LOUISVILLE, Jan. 8.—The people of St. Matthews, a suburb, have been alarmed for the past two days by the ravages of a pet bear which escaped from its owner in Louisville two or three days ago. The bear has been attacked by dogs, and in every instance retaliated, generally killing his assailants. He has also waged a warfare on pigs.

## THE CUBAN LEADERS ALERT.

In Washington Trying to Secure Recognition for the Insurgents.

WASHINGTON, Jan. 8.—It is learned that the chief purpose of the leaders of the Cuban revolutionary party in the United States is coming to Washington to push vigorously the movement to secure recognition of the revolutionists by this government. They made to Secretary Olney a brief but forcible presentation of the claims of the insurgents to recognition. In addition, they presented to the secretary a great number of documents bearing upon the origin, abuses, conditions and present status of the Cuban uprising collected from official archives and unofficial sources.

Recently the house adopted a resolution upon the recommendation of the committee on foreign affairs calling upon the state department for all information in its possession concerning the revolution. President Palma and his associates at once began the compilation of evidence in justification of their cause and are determined that congress shall not want for information.

There is a strong sentiment in the house which has been advanced by the recent successes of the Cubans that this government should do all in its power consistent with international usages to assist the patriots. Mr. Sulzer and several other members are endeavoring to assist the cause in congress.

President Palma predicts that the insurgents will capture Havana within three months, and that a Cuban republic will be established in six months if it has the recognition of the United States.

## EACH COUNTRY MUST YIELD.

Sir Edward Clarke Says This, and Favors a Mutual Mediator.

LONDON, Jan. 8.—The Times this morning publishes four columns, explaining the historical origin of the Monroe doctrine.

Sir Edward Clarke, speaking at Plymouth, in referring to Venezuela, said: "We must not be too impatient or angry with the Monroe doctrine. If we refuse to arbitrate except outside the Schomburgk line we should have war with the United States and a war in which we should not be right. Each side must yield to some extent. We must ignore the American commission, but to say that a line fixed in 1840 was unalterable was to adopt an unreasonable attitude, as the United States adopted in President Cleveland's message."

He hoped, he said, that the government would resume negotiations with Venezuela direct, and that some mediator would be found whose judgment could be accepted with honor by both countries.

## HAVANA HAS NOT FALLEN.

The Country Outside the City Abandoned to the Insurgents.

HAVANA, Jan. 8.—The insurgents are still in the vicinity of Havana, but their movements are not of sufficient importance to chronicle in detail. The number of insurgents at Managua and Calabazar, 14 miles from this city, has been increased, but it is now believed that Havana itself will not be attacked for some time to come. The statement that Havana had fallen was false. Campos' resignation is also denied.

The influx of refugees from the whole of the territory surrounding Havana continues, and apparently it is not possible to obtain sufficient means of transportation to accommodate the fleeing families and their household goods. The country seems to be entirely abandoned to the insurgent army, and no movement apparently avails to check them.

A Washington special says: At the state department it is said that no information has been received concerning the reported critical condition of affairs at Havana. As the navy department has no ships in Cuban waters, no information comes from that source. The intelligence from Cuba is of such an alarming character that some surprise is expressed, even by officials, that no word comes to the government as to the situation.

## WANDERING IN LONDON.

An American Woman, Deranged and Friendless, Yet With \$11,000.

LONDON, Jan. 8.—Your representative has called at the St. George's workhouse to inquire into the strange story of Mrs. Cornelia Seibels of Brookhaven, Miss., who was found wandering in the streets of London, having apparently completely lost her memory. Mrs. Seibels is about 84 years of age, evidently a lady by birth and had over \$15,000 in her possession when taken to the workhouse.

When seen Mrs. Seibels was dressed in an ordinary workhouse blouse, and she was able to talk connectedly on every subject except that of the fortune, said to be \$50,000,000 which she was on the way to Germany to collect as her share of the great Seibels estate. She also has a claim to the Temple estate in England. Mrs. Seibels is, she says, a cousin of the late Justice Lamar of the United States supreme court, and she has in her possession letters of introduction from Governor Stone and ex-Governor Lowry, both of Mississippi.

Finally the skiff was returned to the shore and it looked for a time as if a fight would result, but the affair was ended without any material damage to either party.

# ROYAL BAKING POWDER

A cream of tartar baking powder. Highest of all in leavening strength.—Largest United States Government Food Report.

ROYAL BAKING POWDER CO., 106 Wall St., N. Y.

COINED BY GERMAN.

England Likely to Declare War Against Her Neighbor.

THE YOUNG EMPEROR IS DEFIANT.

He Declares His Purpose to Refuse to Recognize Great Britain's Suzerainty over the Transvaal Republic, Abrogating the 1884 Treaty.

BERLIN, Jan. 8.—At a special audience which Dr. W. J. Leyds, the secretary of state of the Transvaal, had with Emperor William, his majesty declared that he would not recognize any claim of suzerainty over the Transvaal republic.

A London special says: The Globe prints some sensational news under the following scare head lines: "Activity in the War Office." "Anticipated Military Measures."

The Globe then states that the war office has sent a special military messenger to the colonial office and that it is rumored important orders are impending.

A dispatch received here from the military camp at Aldershot says that the general belief, almost backed by proof, prevails there that the authorities are considering the mobilizing of the army reserves and part of the militia. The men employed in the ordnance stores are all very busy.

There is scarcely any doubt but that, after due investigation and deliberation, England will declare war against Germany for the emperor's refusal to further recognize the suzerainty of Great Britain over the Transvaal republic, this right being accorded by treaty. The action of Emperor William in telegraphing congratulations to President Kruger for his victory over Jameson's force was a serious breach of diplomatic usage.

Popular feeling in favor of Dr. Jameson is running very high in London. The Times, for example, says: "The march will remain a glorious tradition for the Anglo-Saxon race."

A dispatch received by the colonial secretary, Mr. Chamberlain, from Sir Hercules Robinson, says that the arms and ammunition of the British Chartered company's forces at Bulawayo have been placed in the custody of the representative of the queen of Great Britain.

The feeling here against Emperor William and Germany on account of the former's dispatch of congratulatory letters to President Kruger, apparently ignoring British suzerainty over the Transvaal republic, continues among all classes of people, and the war sentiment against Germany rises as the time passes. Lady Warwick has written a letter to the Times on the subject. It is understood the armaments and dockyards are being overhauled.

Emperor William is a member of several exclusive English clubs, including the Royal Yacht Squadron, and in some of them the demand for his expulsion is already very loud.

Letters have also been published in the newspapers demanding that he resign his onocely in the Royal dragoon's. There is no truth in the story that the British government was hurriedly drawing troops to Capetown from neighboring British colonies instead of from so distant a country as India.

Building and Loan Man Arrested.

CINCINNATI, Jan. 8.—Edgar J. Shaw, president and manager of the Architects' and Builders' Loan association, has been bound over to \$5,000 by United States Commissioner Hopper, in default of which Shaw went to jail. Shaw has been a big business, and advertised \$100,000 capital stock. It developed that he had no capital stock and the directors were merely nominal. Many complaints were received of no returns. Shaw used the mails for advertising and was arrested for using the mails for fraudulent purposes.

Found Dead and Robbed.

CLEVELAND, Jan. 8.—Albert Wolf, a wealthy farmer of West Dover, has been found dead under the Nickel Plate railroad trestle, two miles west of Rocky river. A bloody coat was discovered a mile away and foot prints in the snow leading to it from the trestle. Wolf had had a large roll of money with him, but on his dead body only 60 cents was found.

Scared by a Pet Bear.

LOUISVILLE, Jan. 8.—The people of St. Matthews, a suburb, have been alarmed for the past two days by the ravages of a pet bear which escaped from its owner in Louisville two or three days ago. The bear has been attacked by dogs, and in every instance retaliated, generally killing his assailants. He has also waged a warfare on pigs.

Spaniards Tried to Swindle Him.

KANSAS CITY, Jan. 8.—George Leas, formerly the proprietor of a boiler works in Kansas City, but now traveling for the Crescent steel works of Bradford, Pa., with headquarters at Chicago, was one of the intended victims of a gigantic swindle, which has been unearthed by the authorities of Valencia, Spain.

## THE CUBAN LEADERS ALERT.

In Washington Trying to Secure Recognition For the Insurgents.

WASHINGTON, Jan. 8.—It is learned that the chief purpose of the leaders of the Cuban revolutionary party in the United States in coming to Washington was to push vigorously the movement to secure recognition of the revolutionists by this government. They made to Secretary Olney a brief but forcible presentation of the claims of the insurgents to recognition. In addition, they presented to the secretary a great number of documents bearing upon the origin, abuses, conditions and present status of the Cuban uprising collected from official archives and unofficial sources.

Recently the house adopted a resolution upon the recommendation of the committee on foreign affairs calling upon the state department for all information in its possession concerning the revolution. President Palma and his associates at once began the compilation of evidence in justification of their cause and are determined that congress shall not want for information.

There is a strong sentiment in the house which has been advanced by the recent successes of the Cubans that this government should do all in its power consistent with international usages to assist the patriots. Mr. Sulzer and several other members are endeavoring to assist the cause in congress.

President Palma predicts that the insurgents will capture Havana within three months, and that a Cuban republic will be established in six months if it has the recognition of the United States.

## EACH COUNTRY MUST YIELD.

Sir Edward Clarke Says This, and Favors a Mutual Mediator.

LONDON, Jan. 8.—The Times this morning publishes four columns, explaining the historical origin of the Monroe doctrine.

Sir Edward Clarke, speaking at Plymouth, in referring to Venezuela, said: "We must not be too impatient or angry with the Monroe doctrine. If we refuse to arbitrate except outside the Schomburgk line we should have war with the United States and a war in which we should not be right. Each side must yield to some extent. We must ignore the American commission, but to say that a line fixed in 1840 was unalterable was to adopt an unreasonable attitude, as the United States adopted in President Cleveland's message."

He hoped, he said, that the government would resume negotiations with Venezuela direct, and that some mediator would be found whose judgment could be accepted with honor by both countries.

## A Pennsylvanian's Confession.

LOST ANGELES, Jan. 8.—At a prayer meeting at South Pasadena Charles Crawford arose under deep excitement and announced that he was Albert Defendorf, son of a wealthy merchant of Huntingdon, Pa., and a fugitive from justice, under sentence for burglary and larceny in Pennsylvania. He later came to this city and gave himself up to the sheriff.

## Felton May Be President.

ATLANTA, Jan. 8.—A rumor is current in railroad circles here, apparently with a strong basis of fact, that Mr. Samuel Morse Felton, receiver of the Cincinnati, New Orleans and Texas Pacific railway, is to be chosen president of the Baltimore and Ohio Railroad company.

## A United States Consul Dead.

VIENNA, Jan. 8.—Dean B. Mason, vice consul general of the United States here, is dead.

## The Weather.

## PITH OF THE NEWS.

Two children of Abraham Leonard were burned to death six miles south of Dallas, Tex.

A suit for \$8,250,000 has been begun in New York against the Atchison, Topeka and Santa Fe road for alleged conspiracy to wreck the Prescott and Arizona railroad company.

## HAVANA HAS NOT FALLEN.

The Country Outside the City Abandoned to the Insurgents.

HAVANA, Jan. 8.—The insurgents are still in the vicinity of Havana, but their movements are not of sufficient importance to chronicle in detail. The number of insurgents at Managua and Calabazar, 14 miles from this city, has been increased, but it is now believed that Havana itself will not be attacked for some time to come. The statement that Havana had fallen was false. Campos' resignation is also denied.

The influx of refugees from the whole of the territory surrounding Havana continues, and apparently it is not possible to obtain sufficient means of transportation to accommodate the fleeing families and their household goods. The country seems to be entirely abandoned to the insurgent army, and no movement apparently avails to check them.

A Washington special says: At the state department it is said that no information has been received concerning the reported critical condition of affairs at Havana. As the navy department has no ships in Cuban waters, no information comes from that source. The intelligence from Cuba is of such an alarming character that some surprise is expressed, even by officials, that no word comes to the government as to the situation.

## WANDERING IN LONDON.

An American Woman, Deranged and Friendless, Yet With \$11,000.

LONDON, Jan. 8.—Your representative has called at the St. George's workhouse to inquire into the strange story of Mrs. Cornelia Seibels of Brookhaven, Miss., who was found wandering in the streets of London, having apparently completely lost her memory. Mrs. Seibels is about 84 years of age, evidently a lady by birth and had over \$15,000 in her possession when taken to the workhouse.

When seen Mrs. Seibels was dressed in an ordinary workhouse blouse, and she was able to talk connectedly on every subject except that of the fortune, said to be \$50,000,000 which she was on the way to Germany to collect as her share of the great Seibels estate. She also has a claim to the Temple estate in England. Mrs. Seibels is, she says, a cousin of the late Justice Lamar of the United States supreme court, and she has in her possession letters of introduction from Governor Stone and ex-Governor Lowry, both of Mississippi.

## Blown Up or Foundered.

## Mrs. Davidson Admits Her Identity.

SAN FRANCISCO, Jan. 8.—At the resumption of the preliminary examination of Mrs. Mary A. Davidson, charged with extorting \$500 from Rev. Dr. C. O. Brown, in the police court, Mrs. Davidson gave the story of her life, which was identically the same as that told in these dispatches in interviews with Boston detectives, with the exception of her term in prison and other criminal features.

The Short Company Gave Up  
the Battle Today.

### MUCH MONEY WAS INVOLVED

After Several Postponements and a General Desire to Gain Time the Plaintiff Must Pay the Costs, For the Case is Thrown Out—Other Court News.

Special to the News Review.

LISBON, Jan. 8.—The most important case before the court today was that of the Short Electric company against the East Liverpool-Wellsville street railway, and it was thrown out for lack of prosecution. It will be remembered that the plaintiff sued for \$38,791.22 a few years ago, and there have been several continuances and postponements, but the defendant was anxious for a trial. Today Judge Taylor threw the case out, and ordered that the costs be paid by the plaintiff. This ends the litigation between the companies. A lot of motors made up the cause of the trouble.

The motion for a new trial in the case of Snow, Church & Co., against W. T. Tebbutt, of East Liverpool, was set aside today. The amount involved was \$172, and the case has been settled.

A settlement was affected in the case of T. P. Frances against James Strivley, of Salineville. It involved \$900 which was demanded by the plaintiff for coal mined on his land.

The First National bank of Wellsville took judgment against W. G. Duval for \$799.25, the amount of a promissory note.

Myra Rembert was granted a divorce from her husband, Samuel Rembert, because he has been wilfully absent for several years. She got the custody of her child and her maiden name.

J. F. Leonard, C. L. and Samuel Butz and Rachel Ritter, all heirs of Mary Butz, filed a suit last night against W. S. Butz, executor of the estate. They claim that the will which was filed as the last will of the deceased was not what it was represented to be, since she was not of sound mind, owing to age and sickness. They also claim that the document filed was signed by the deceased only after she had been coerced by the defendant.

There will be no difficulty in this county, as there have been in other counties, regarding the filing out of the term of commissioner because of the change in the law. Judge Young, Recorder Lease and Auditor Harvey held a meeting last night, and appointed A. H. Phillips to succeed himself until the commissioner to be elected can take his place in December.

### ILLEGAL SELLING.

Persistent Pointers From the Pen of "Law and Order."

EDITOR NEWS REVIEW.—First, permit me to congratulate you on your stand for law and order. You are building on the only solid platform which assures prosperity and blessing to a nation and to this municipality, and although you are sure to meet with strong opposition from the lawless element in the community, and even from some good, but mistaken citizens, you will grandly triumph in the end, for "truth is right, and must prevail."

And now a word on the liquor question. The licensed saloon is working under legal permission, and he who conforms to the law is entitled to full protection, the same as any other business man. But the saloonkeepers must be compelled to observe the law to the letter, as, while they are engaged in a legal business, the fact is well known, and fully recognized by the law of the land, that they are engaged in a very dangerous business—a business which must submit to close restrictions in order to avoid trouble and disorder. Sunday selling is illegal, and yet 100 persons have been noted entering a single saloon on a single Sabbath in this fair city of East Liverpool. Only last Sabbath, 35 would-be imbibers of liquid poison were turned away from the saloon in question, simply owing to the fact that an officer of the law was watching the house, and a sentry on duty gave the alarm in each instance. Truly a fine condition of affairs to exist in a well-regulated city. In order that the daily and weekly journals of East Liverpool, engaged in making excuses for crime and criminals and for law-breakers and lawlessness, may not be able to assert that our charges are "general" and not "specific," we would state that our informant resides in the family of a well-known magistrate of this city, and noted the visitors to the saloon specified, further stating that actual count had been made on previous occasions, when the number of tipplers on a single Sabbath reached almost the figure of 200. Here comes the query: "Why did not this witness make complaint and testify against the infamous saloonkeeper?" Simply because said witness was afraid to be made a target of. Turn on the light.

### Burr Oakes.

A fair sized audience greeted Cool's Stock company in their production of "Burr Oakes" at the Grand last evening. The play was poorly rendered, and should be eliminated from the company's repertoire. The specialties by different members of the company were very good, and served to allay somewhat the disappointment of the audience. Tonight they produce "The Clemenceau Case," one of the most successful sensational dramas ever written, and the management assures the patrons that all the laurels lost at last night's performance will be regained.

Carlton Cornwell, foreman of the Gazette, Middletown, N. J., believes that Chamberlain's Cough remedy should be in every home. He used it for a cold and it effected a speedy cure. He says: "It is indeed a grand remedy. I can recommend to all. I have also seen it used for whooping cough, with the best results." Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

Down on the Suwanee River. One of the best and most pleasing plays that will be at the Grand this season. The most ludicrous comedy features ever seen here are promised, and the scenery is elaborate. The piece is a farce comedy of the most ludicrous kind. The company includes 40 negroes, who excel all others as singers, dancers and comedians. The African scene in the first act is very good, and the scenery is nothing short of wonderful. The company is at the Grand on Friday night.

Still in Business. I am still in the undertaking business, and all persons who desire my services should call at my residence 182 Second street, or at the Standard Livery, Seventh street.

### ENGLAND'S CATHEDRALS.

Beautiful Architectural Specimens to Be Seen in Small Towns.

It was my privilege to see ten of the cathedrals of England, and situated, as some of them are, in small towns, one comes on visiting them to know more of the life of the people than the tourist can attain who flies from one great city to another, says a writer in the Springfield Republican. Each traveler will have his favorite among them, and all have their excellences and defects.

Some of them are partially spoiled by the smoke of the town, and any restoration ought to be welcome that will clean it off. Such is the case with York and Lincoln and to a greater extent with Peterborough, whose magnificent facade, or, rather, architect's conception of it, is best appreciated by the study of a photograph. As the English are not inclined to the apotheosis of dirt, they have in many cases removed the disgrace in recent years, and Peterborough itself is now made glorious within in all the marvelous beauty of its cream white stone. When these buildings are not in smoky towns, the atmosphere, after the lapse of ages, has sometimes heightened the architectural effect, so that Ely grows old gracefully and Salisbury even beautifully. Salisbury and Canterbury seem well nigh perfect. In Durham the marble columns are marred by a puerile fluting. The towers of York are not all finished. The wonderful central tower of Lincoln has lost its pinnacles. The great facade of Peterborough is out of proportion to the building. The external effect of Ely is too much like a fortress. The spires of Litchfield are not mates in color and are somewhat ornate, but upon Canterbury and Salisbury the eye rests content. And yet he is little to be envied who would not find intoxicating joy in every one of these, so great are they, and in their varied power so lifting the beholder above and beyond all incidental defects, and it is quite to the credit of the young woman from Springfield who is said to have burst into tears at the sight of Westminster abbey.

### The Origin of Bonfires.

It is just as well that the police and the insurance companies object to bonfires on election days, indifferent to the fact that street urchins are simply reviving the rites of Baal and Moloch. When Christianity ruled, old ways and customs could not be abolished, and so the heathen, still hankering after the ancient deities, but half controlled by pope or bishop, made their bonfires on the eve of St. Peter or St. John. One use of bonfires in the not so far distant past was as a means of disinfection. In his "History of the Plague" Defoe tells of bonfires in London streets. There is reason to suppose that in kindling such fires there was still a remnant of superstition left. It was in a measure a sacrifice to Baal. As to the excellence of the method of making fires to drive away a plague, the benefit would be questionable. Anyhow it may be dwelt upon as the earliest effort made toward cremation, for it was of some slight use when an infected neighborhood caught fire and was reduced to ashes; but then the remedy might have been worse than the disease.—New York Times.

### A Trick of the Greeks.

A party of tourists wedding its way to the Parthenon in Athens is almost certain to have attention attracted to a group of peasants animatedly discussing some object they have evidently just dug from the ground. It is a gold coin incriminated with dirt. The dust rubbed off, a coin of the time of Philip or Alexander is disclosed. Of course every one of the party is anxious to secure the relic, which is finally bought at a very high price. The coin was made in Birmingham but a few weeks before, and its only value is its gold, which is genuine.

There is good reason for the popularity of Chamberlain's Cough remedy. Davis & Buzard, of West Monterey, Cal., company, Pa., says: "It has cured people that our physicians could do nothing for. We persuaded them to try a bottle of Chamberlain's Cough remedy and they now recommend it with the rest of us." Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

### Burr Oakes.

A fair sized audience greeted Cool's Stock company in their production of "Burr Oakes" at the Grand last evening. The play was poorly rendered, and should be eliminated from the company's repertoire. The specialties by different members of the company were very good, and served to allay somewhat the disappointment of the audience. Tonight they produce "The Clemenceau Case," one the most successful sensational dramas ever written, and the management assures the patrons that all the laurels lost at last night's performance will be regained.

Carlton Cornwell, foreman of the Gazette, Middletown, N. J., believes that Chamberlain's Cough remedy should be in every home. He used it for a cold and it effected a speedy cure. He says: "It is indeed a grand remedy. I can recommend to all. I have also seen it used for whooping cough, with the best results." Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

### Down on the Suwanee River.

One of the best and most pleasing plays that will be at the Grand this season. The most ludicrous comedy features ever seen here are promised, and the scenery is elaborate. The piece is a farce comedy of the most ludicrous kind. The company includes 40 negroes, who excel all others as singers, dancers and comedians. The African scene in the first act is very good, and the scenery is nothing short of wonderful. The company is at the Grand on Friday night.

### ENGLAND'S CATHEDRALS.

Beautiful Architectural Specimens to Be Seen in Small Towns.

It was my privilege to see ten of the cathedrals of England, and situated, as some of them are, in small towns, one comes on visiting them to know more of the life of the people than the tourist can attain who flies from one great city to another, says a writer in the Springfield Republican. Each traveler will have his favorite among them, and all have their excellences and defects.

Some of them are partially spoiled by the smoke of the town, and any restoration ought to be welcome that will clean it off. Such is the case with York and Lincoln and to a greater extent with Peterborough, whose magnificent facade, or, rather, architect's conception of it, is best appreciated by the study of a photograph. As the English are not inclined to the apotheosis of dirt, they have in many cases removed the disgrace in recent years, and Peterborough itself is now made glorious within in all the marvelous beauty of its cream white stone. When these buildings are not in smoky towns, the atmosphere, after the lapse of ages, has sometimes heightened the architectural effect, so that Ely grows old gracefully and Salisbury even beautifully. Salisbury and Canterbury seem well nigh perfect. In Durham the marble columns are marred by a puerile fluting. The towers of York are not all finished. The wonderful central tower of Lincoln has lost its pinnacles. The great facade of Peterborough is out of proportion to the building. The external effect of Ely is too much like a fortress. The spires of Litchfield are not mates in color and are somewhat ornate, but upon Canterbury and Salisbury they are content. And yet he is little to be envied who would not find intoxicating joy in every one of these, so great are they, and in their varied power so lifting the beholder above and beyond all incidental defects, and it is quite to the credit of the young woman from Springfield who is said to have burst into tears at the sight of Westminster abbey.

### The Origin of Bonfires.

It is just as well that the police and the insurance companies object to bonfires on election days, indifferent to the fact that street urchins are simply reviving the rites of Baal and Moloch. When Christianity ruled, old ways and customs could not be abolished, and so the heathen, still hankering after the ancient deities, but half controlled by pope or bishop, made their bonfires on the eve of St. Peter or St. John. One use of bonfires in the not so far distant past was as a means of disinfection. In his "History of the Plague" Defoe tells of bonfires in London streets. There is reason to suppose that in kindling such fires there was still a remnant of superstition left. It was in a measure a sacrifice to Baal. As to the excellence of the method of making fires to drive away a plague, the benefit would be questionable. Anyhow it may be dwelt upon as the earliest effort made toward cremation, for it was of some slight use when an infected neighborhood caught fire and was reduced to ashes; but then the remedy might have been worse than the disease.—New York Times.

### A Trick of the Greeks.

A party of tourists wending its way to the Parthenon in Athens is almost certain to have attention attracted to a group of peasants animatedly discussing some object they have evidently just dug from the ground. It is a gold coin incrustated with dirt. The dust rubbed off, a coin of the time of Philip or Alexander is disclosed. Of course every one of the party is anxious to secure the relic, which is finally bought at a very high price. The coin was made in Birmingham but a few weeks before, and its only value is its gold, which is genuine.

There is good reason for the popularity of Chamberlain's Cough remedy. Davis & Buzard, of West Monterey, Clarion company, Pa. says: "It has cured people that our physicians could do nothing for. We persuaded them to try a bottle of Chamberlain's Cough remedy and they now recommend it with the rest of us." Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.
